5 Jul 2001	Psychiatric breakdown; signed off sick by GP.	Entered long-term sickness absence.

Mar 2002 – 2005	Unum Income Protection payments began (~ ² / ₃ salary).	Nine-month gap before payments commenced caused hardship. Ongoing sickness absence.
2001–2004	Multiple psychiatric consultations.	CACI referred claimant to Dr. Cull (London) who initially dismissed racial abuse. Eventually accepted seriousness after claimant broke down during assessment.
2005 (spring)	Under pressure from Unum, phased return to work attempted.	GP supported return. Limited proactive support from CACI.
1 Jul 2005	Demotion and Constructive Dismissal.	MD Jeet Khaira reneged on assurance of Principal Consultant role. Demoted to junior admin role (£24,000 salary). Reasonable adjustment request (school run – 10am start on alternate Mondays) rejected. Trust and confidence destroyed. Claimant never returned.

2005–2025	Permanently unfit for work.	Maintained on Unum payments. Severe restrictions on daily life and ability to work.
2021–2025	Payslips and P60s not issued.	Breach of statutory duty (s.8 ERA 1996). Only provided in Aug 2025 after formal request.
Oct 2026 (expected)	End of Unum Income Protection payments.	Claimant will have no income thereafter. This risk is a direct consequence of Respondent’s unlawful conduct in 2001–2005.
