Hi Ash

Just to confirm our today's telcon regarding the possibility of you doing voluntary part-time work, which could be organised via the Job Centre.

Due to Stratford being fairly non-commercial, you did say that most openings would be working in a charity shop, or similar.

Whilst I'm sure that could be useful, it would be far better if you could utilise your technical skills, just to get back into 'pc' mode - I'm not sure if you would have any suggestions here Emma?

Glad you're endeavouring to do your hour a day on the computer - don't forget it's an hour and a half a day (without fail!) from next week!!

Speak soon

Christine

Subject: RE: Relapse

Hi Ash

I am terribly sorry to hear your news, the progress you have made of late has been exceptional and I am very regretful that this has happened.

With regards to the re-grading I think it is better to think of this as a continuation of the therapeutic work you have been doing, but rather than this be on an unpaid basis, that you will start to be paid for the work you are doing, with a view to you gradually building up to your ins occ or a similar occ over a pre-agreed period of time.

It is certainly Unum's expectation that this re-grading as you refer to it would not be on a permanent basis and I would work with CACI to set very clear expectations that you are gradually exposed to the duties of your ins occ with a view to you progressing into this role or similar in due course as and when positions become available.

Following on from our discussion last week I have spoken to our claims dept and they are not averse to paying a prop ben going forward but would require an updated GP rpt to confirm your medical status. In the meantime they would continue to pay full benefit.

In my mind the way forward being proposed by CACI is a good way to progress your RTW without you being thrown in at the deep end and allowing you gradually be exposed to the demands of a higher grade position. However I completely accept that this is not perhaps the response you were expecting and that this has perhaps come as quite a shock.

I have briefly updated Christine at CACI and request your consent to forward your email to her to ensure that she is privy to all info.

I am happy to chat things through at your convenience and am here to provide you with support as appropriate.

Take care and I hope to hear from you soon

Kind Regards

Subject: Relapse

Dear Emma,

Following my visit to my GP practice this morning, where I was seen by Dr Jo Pearcy, I have been declared 'Unfit for Work' of any type due to a relapse in my condition.

The relapse started during the evening of 1st July 2005, as the after effects of the shock of being told I was to be 'Re-Graded' from my position set in.

No warning, support, counselling or follow up was given to me about the 'Re-Grading' by CACI Ltd.

Dr Jo Pearcy has also given me a written letter stating that I am not to have any telephone contact with CACI Ltd, or any other body related to work until my condition stabilises.

I have been prescribed diazepam, propranolol, fluoxetine and mebeverine to help stabilise the recurrence of my symptoms. I have been given an appointment to see my usual GP Dr A Whiteley on 19th July 2005 at 2.40pm to review my condition.

I can only hope that is only a temporary setback, and that I soon will be able to resume all the good work I had put in towards my return to work objective.

I shall do my very best to reply to any emails you send.

Once again thank you for all your kind support.

Regards

Arshad Shafi

Subject: New Starter - Mark Orton

All,

Today sees the arrival of Mark Orton into the IMS group. Mark joins us from Ridge Technology where he has spent the last 2 and half years working as a Senior Software consultant.

He will be joining in with the ongoing development of the HB EDMS system and other areas, using his skills in .NET.

Please join me in welcoming Mark to CACI.

Regards,

Andy Partridge

Subject: RE: Work Prep placements

Emma,

I have just spoken to my 'Work Assist' officer and I have put in a request for a work preparation placement. The request will be sent on to the Occupational Therapist for evaluation, once s/he has received my medical details from my GP and has assessed me. My feeling is that this is going to take a number of weeks, in the meantime I shall continue with my home based CBT training.

Have a nice break.

Regards

Arshad Shafi
